

2010

Discount Schedule

All loads will be tested for aflatoxin with a strip test and may be tested using the Neogen testing procedures. Any load found to contain greater than 20 ppb will be rejected without further testing. NGFA rules apply.

SWGE will not accept nor be held responsible for any corn that is treated with chemicals that are not labeled for corn as regulated by the EPA and the Ga Dept of Ag. SWGE reserves the right to test all corn for any chemicals or toxins.

Corn with bugs, weevils, crotalaria, etc will not be accepted under any circumstances.

Corn testing greater than the set standards will be refused, no exceptions.

SWGE reserves the right to modify its procedures at any time if deemed necessary.
